

## Fast, Efficient CBR Testing Service

The in-situ CBR test is described in BS 1377: Soils for Civil Engineering Purposes: Part 9, and was developed for measuring the load bearing capacity of soils. This test has the advantage of being relatively quick and inexpensive and the results can be with you the next working day.

Further specialised tests are available ensuring a complete service from initial appraisal to analysis of findings, meeting the very demanding time scales and technical know-how needs of ground workers, consultants and contractors.

**Geotechnical Site Testing:** in-situ Plate Bearing Tests, in-situ Density, Nuclear Density testing, ground gas and water installation and monitoring.

**Our staff will be happy to discuss your requirements and provide testing proposals and costings.**

Kiwa:  
the home of  
independent, high  
quality testing

## How can we help?

### Geotechnical Laboratory Testing:

- Particle Size Distribution
- Plasticity Index
- Moisture Content
- Content vs Dry Density
- Undrained Triaxial
- Bituminous Materials Testing
- Los Angeles Abrasion
- Bulk Density Determination
- Aggregate Crushing Value (ACV)
- Aggregate Impact Value (AIV)
- Permeability
- Flakiness Index
- Frost Susceptibility
- Particle Density
- Root Identification
- Polished Stone Value
- Hydraulic Conductivity
- Water Filled Porosity
- Air Filled Porosity

### Other Services:

As an inspection, testing and investigation company with over 35 years of service to the construction, civil engineering, environmental and associated industries. Kiwa CMT Testing provides our clients with a comprehensive scope of laboratory and site testing and investigative operations, under the following headings:

- Contaminated Land
- Offsite Disposal
- Chemical Analysis
- Concrete & Mortar
- Building Products
- Geotechnical Investigations
- Lighting Column Testing
- Structural Investigations
- Sports Stadia Barrier Testing

We provide key on-site and off-site investigative, consultative and testing services. For our clients we are 'The Obvious Choice'.

### How to contact us

Please call us on +44 (0)1332 383333 or email: [cmtenquiries@kiwa.co.uk](mailto:cmtenquiries@kiwa.co.uk) and we will get straight back to you. Why? Because we like to help>
